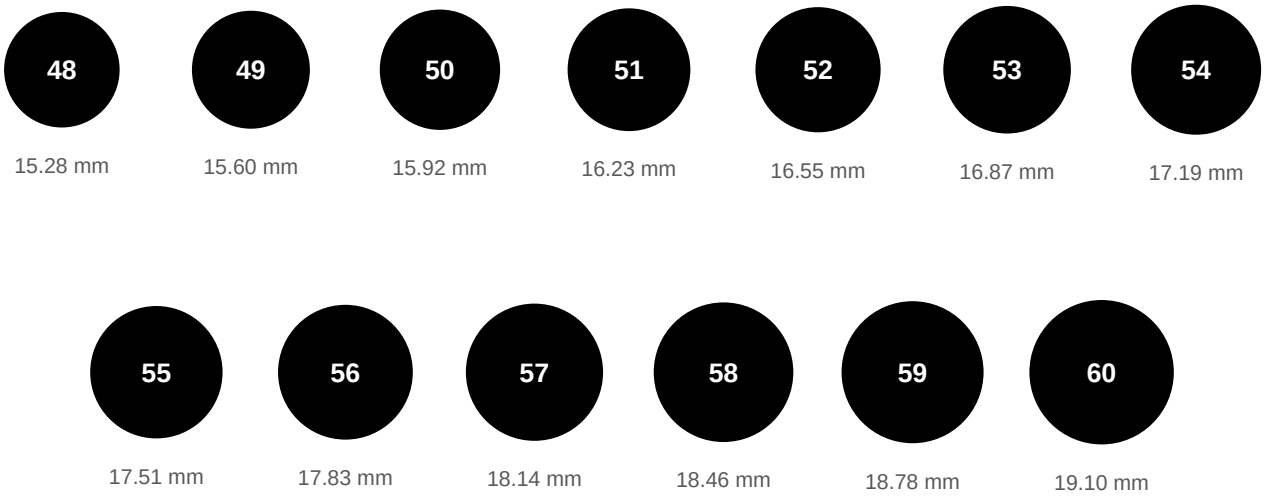
LA CRÉATRICE MORGANNE BELLO

# Ring size guide

Find your ring size



**10 cm**

Check the scale of the printed page: this line must measure exactly 10 cm (100 mm). Print at actual size (100%), without “fit to page”.

## How to use it

Each circle matches the inside diameter of a ring, from size 48 to 60. The number in the centre is the inside circumference, in millimetres (French sizing).

Place one of your rings over the black circles: your size is the circle that stays visible inside the ring, fitting its inner edge.
